

Baylor Master's Program with Concentration in ABA  
Coursework (36 credit hours total)

All students in the master's programs (M.S.Ed. or M.A.) with a concentration in ABA are required to take the following coursework:

- \*EDP 5302 Concepts and Principles of Applied Behavior Analysis
- \*EDP 5354 Ethics in Applied Behavior Analysis
- \*EDP 5357 Single Subject Research Design
- \*EDP 5358 Teaching Individuals with Autism & Developmental Disabilities
- \*EDP 5301 Philosophy of Applied Behavior Analysis
- \*EDP 5361 Challenging Behavior
- \*EDP 5374 Managing Behavior Change Programs
- EDP 5V98 Practicum in Applied Behavior Analysis
- EDP 5393 Cultural Issues with Children and Families

Students will need to take some or all of the following courses, depending on their program of study:

- EDP 5333 Psychology of Learning
- EDP 5332 Human Growth and Development
- EDP 5V99 Thesis

\* The Association for Behavior Analysis International has verified these courses toward the coursework requirements for eligibility to take the Board Certified Behavior Analyst® examination. Applicants will need to meet additional requirements before they can be deemed eligible to take the examination.
